

Daily United States Weather Map

WEATHER CONDITIONS.

The southwestern storm, which is central over Arizona, and a tropical disturbance which is appearing over Florida, have been attended by rain or snow in the southern plateau sections, the Missouri and upper Mississippi valleys and the lake region and on the extreme south Atlantic and east Gulf coasts. A rainfall of 1.72 inches occurred at Jacksonville, Fla. The rest of the northwestern area of high pressure and low temperature has moved to western Nebraska, and freezing weather this morning extends as far eastward as the upper Mississippi valley and the upper lakes. The eastward movement of the high and the approach of the southwestern low will be attended by fair and continued cold weather in this vicinity tonight, with freezing temperature, followed by increasing cloudiness Saturday.

RIVER FORECAST.

During the next 48 hours only slight changes in the Mississippi will occur from below Duquoin to Clinton. A falling tendency will continue from La Claire to Muscatine.

J. M. SHERIER, Local Forecaster.

The Ship of State.

Sir Wilfrid Laurier once took a

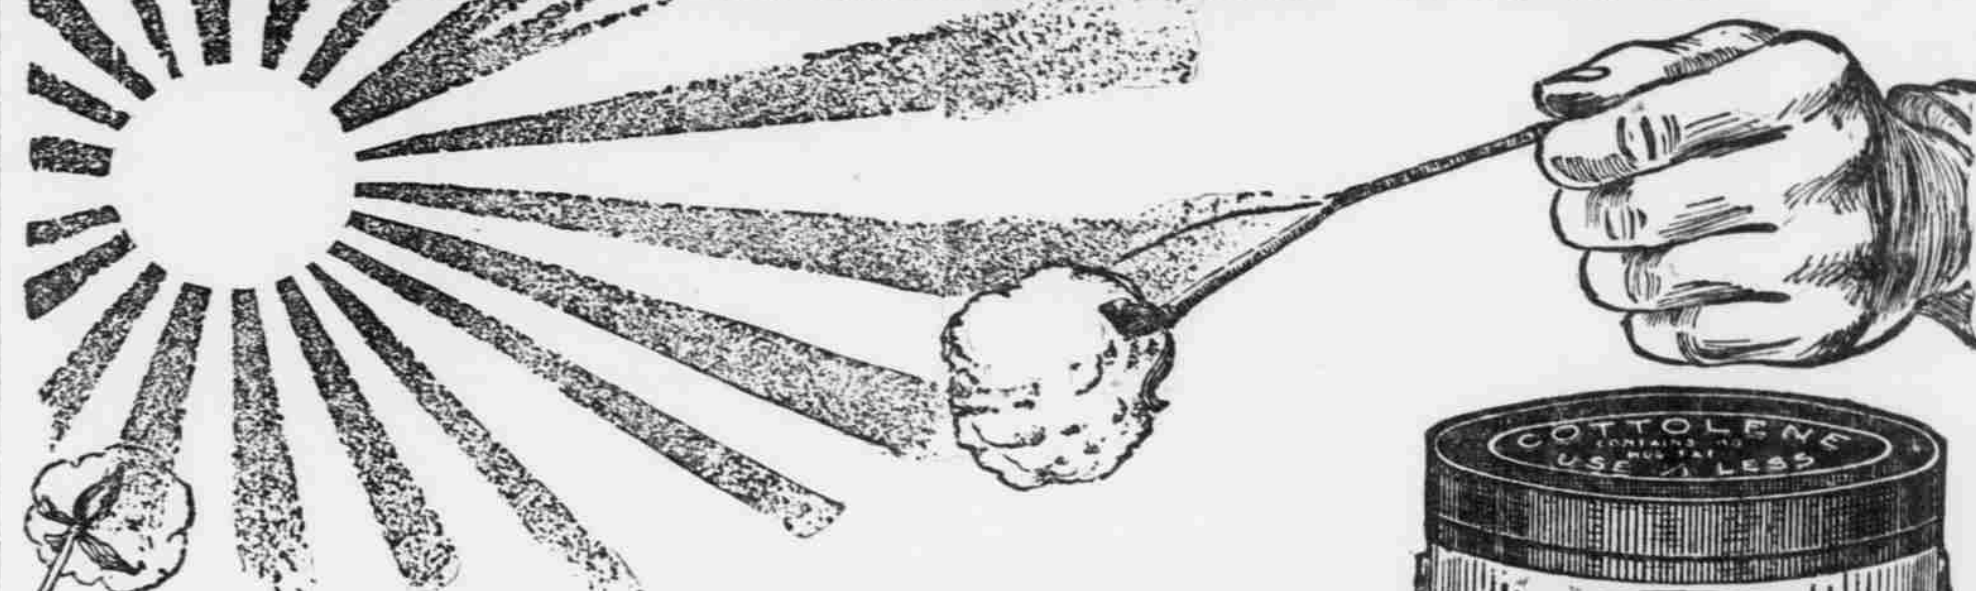

At High School

Yesterday afternoon there was no singing period, the time being devoted to a spelling test. Last year when the same kind of a contest was held the seniors were proved the best spellers and the sophomores the poorest. A list of 50 words were given out, and although the test was unexpected, it is hoped that the results will be good, if they are not satisfactory some remedy will be devised.

The football team held its final practice before the Galesburg game this afternoon. The lineup will be practically the same as it was last Saturday. It is: Bodeller, le; Salzmann, Jr. Emple, lg; Hughes, c; Behnamann, rg; Treumann, re; Sexton, re; Kittling, q; MacManus, lb; Wright, rb; Willet, t.

Cottolene

Makes Sunshine Food

The Dyspeptic Shuns Rich Food

because it causes him untold agony afterward. Cottolene, because of its freedom from hog fat, is digestible, and makes rich food that any stomach can digest. No indigestion follows in its wake.

Animal fats tend to heat the system and cause stomach and other troubles. Cottolene is a pure, vegetable product that nourishes and builds up. Up-to-date physicians recommend Cottolene in the cooking of food for invalids. Never heard of lard being recommended for that purpose did you?

Use Cottolene and have a perfect digestion. Cottolene is more economical than butter or lard—use one-third less.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after giving Cottolene a fair test.

"Nature's Gift from the Sunny South"

Never Sold in Bulk

Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

If you have been going all winter with a troublesome, weakening cough, without obtaining relief or cure from the numerous old-time, out-of-date cough mixtures, then you should try making at home a cough syrup that has a laxative, cleansing and tonic action. Essence mentho-laxene, when made into a syrup, quickly relieves the most chronic coughs and colds on the lungs of old or young, and not only that, but it has a most decided curative action so that almost any chronic case may be cured in a week or two. Buy of your druggist a 2½ ounce package of essence mentho-laxene, containing full directions for making a pint of laxative cough syrup very easily at home. You make a syrup of granulated sugar. Here is the formula: Essence mentho-laxene 3½ ozs. Granulated sugar syrup 12½ ozs. It makes the sweetest cough remedy known for old people, and children like it so well, too. It not only quickly loosens the tightest cough, but it drives the cold out of the system and cures by its tonic and laxative action. You can save \$3 to \$4 by making it at home cheaply, as a pint lasts a family a long time.</p>	

HIGH LICENSE HALF-WAY PROHIBITION

When you adopt a high license plan it is HALF-WAY PROHIBITION. It will prevent the man who has a small business which he has always conducted respectfully, from continuing in business. Rock Island has several small saloons against which there has never been a complaint, small neighborhood places, many of them surrounded by a peaceful, beer-drinking foreign population. NOT ONE OF THESE SALOONS COULD PAY THE HIGH LICENSE. Their owners would be driven out of business and their property practically confiscated. The unfairness of such a proposal will appeal to every person who gives the matter any consideration.

HIGH LICENSE WILL INCREASE CONSUMPTION OF LIQUOR

Every intelligent, sane person favors temperance.

WHEN YOU INCREASE THE TAX ON ANY COMMODITY you make it necessary for the dealer to SELL A LARGER QUANTITY in order to get his usual profit or income out of his business.

When you increase the saloon license from \$600 to \$1,000 it means that every saloon keeper in business must sell 66 per cent more liquor to pay that license and still leave him an income equal to that he is now receiving or he must adulterate the goods he sells, so as to get a larger margin of profit out of each sale.

THE ACTION OF HIGH LICENSE is exactly the same as that of levying a special tax upon any other commodity demanded by the people—THE CONSUMER IS THE LOSER. The saloonkeeper will not be able to increase the price of drinks, but he will be compelled to sell inferior goods. There is where the greater danger lies. Pure liquors drunk in moderation do very little, if any, damage. But when you put a burden on the shoulders of the man who sells the liquor, making it imperative that he get more money out of his business, you will readily see that THIS LEADS TO DEGENERACY AND DEBAUCHERY.
